Humane Managed Care?

Anita Lightburn and Gerald Schamess, Editors

Humane Managed Care? is important, timely, and provocative! Although there is breadth, there is also depth and specificity. The book addresses such crucial questions as What happens to "caring" in a managed care environment? What happens to "humane" services for vulnerable populations in this profit-driven environment? I encourage all social workers to read this book!"

—Paula Allen-Meares, PhD, Dean and Professor
 School of Social Work, University of Michigan, Ann Arbor
